Applicant's response to the restriction requirement August 15, 2007 has been received. Applicant has elected group I claims 1-6 drawn to a strip merchandiser for prosecution in this application. Accordingly, the restriction requirement is hereby made final and claims 7-10 are withdrawn from consideration in this application. Claims 11 and 12 are noted as having been canceled by applicant.

Claims 1 and 2-6 dependent thereon are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2, the recitation "of the type described" is indefinite and should be removed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 (as best understood) are rejected under 35 U.S.C. 102(b) as being anticipated by Fast et al. 4718627. Fast et al. teach a strip merchandiser 10 having an elongate body 28 having a plurality of longitudinally spaced product mounting hooks 18 and a header portion 14 having different characteristics to those of the body portion. Note reduced width section adjacent the intersection between the header portion and body portion (Fig. 3, Fig. 4, and Fig. 5) wherein neck portion 40 is created by providing a pair of opposed lateral cuts 22. When the strip is cut, an amount of material is

completely removed (or there would be no separation of the material at the cut line).  
Note the bending of the neck and the cuts 36 and 38 that encourage that bending action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar strip merchandisers are illustrated by Valiulis 5339967; Conway et al. 5284259; Wise et al. 6966446; Crysedale 5743403; Rissley 5405022; Valiulis 5386916 and Alexander 4832207.
